Providing Commercial Flue Solutions

An Irish Owned Company manufacturing, designing and installing
great quality flue and chimney systems since 1988

At Mi-Flues we understand that time is money and there are deadlines which must be met

Because we design and manufacture quality commercial flue we can:

- Provide solutions that other suppliers cannot
- Custom make components to suit your actual requirements
- Assist with measure-ups on site to give you exactly what you need to complete the project

We support you from the tender or quote stage, right through to installation and completion of the project to your satisfaction. We provide a wide range of product systems in single wall and twin wall to suit all projects including generator flue, pressurised flue and cascade systems for high efficiency condensing boilers and standard efficiency boilers.

Products are:
- Available in diameters 80mm to 500mm and above
- Competitively priced
- Supplied, delivered and installed by our fully insured and trained Installations teams
- Supported by our Industry recognised Expert Technical advice and backup service
- Fully tested and approved complete with Declarations of Performance

Some of our installations include:

- Ulster Bank
- Trinity College
